WHITELEAF
AYLESBURY
BUCKS
PRINCES RISBOROUGH 421.

Dear T.

Forgive my being
dilatatory. I am not
now as I have been of
yore.

I am sure Mica would
have nothing to say about
Dr P - if she had she
would have difficulty in
saying so. I have
expected a letter from her
for six months & it has
not come - perhaps never
well
with a slipshod style

Of course you've thought of her. Her only merit, over many others, is that she is alive

Fred Hellowell ought to know something - but dear old Fred (who has two annual holidays with us here) is quite hopelessly & immensley imprecise in whatever he's told us

long ago - Bob Enson was never I think in contact

The files of the M. & might yield something - but I think not much

I thought that Fred had resigned the Rotary job. It's not having done so is immensely impressive. I'm just checking the London Commercial Club

from M. & as well from S. & C.
