My Dearest Amy,

This brings with it many love & good  
wishes for you all at Christmas  
for the coming year. Our thoughts  
often go out to you & your precious  
boy, and you know how we appreciate  
all that his work in this great  
Crisis must mean to you & Jack.  
It is a wonderful time and I know  
how you must count the time for

his letter and how you must rejoice  
to know how well he is doing and  
that he keeps well in health &  
spirits. So very many thanks,

Dear Amy for those lovely Jaeger  
jackets, which will be "a boon & a  
blessing" when the cold weather comes  
back. You really should not have  
given us anything. We have divvied  
off Christmas presents this year as a

war economy. Philippa is very keen  
on this & will not leave London  
even for a day on this ground. She  
is spending her week end at  
Ellen's flat - by herself for  
Ellen is going to her brother.

I was so very interested in the  
Bedales magazine which you  
sent - L-Agnes. I think it is a  
splendid record; and that  
it shows that Jack has

succeeded in his great aim of bringing  
out the independent character &  
capacity of the boys & girls. The  
extracts from letters are so very  
interesting as illustrating this.

I am so thankful to you too for  
sending A Beacon for the Blind  
to St Dunstons. I feel sure it will  
be a great help to many of the fine  
men who are being trained there.

With dear love in which I express  
ever  
Yours lovingly  
M G Dawcote
