Would you mind writing
 to Mrs. and ask her not to
 let any of them write any
 details of their life. That is
 so much better to send just
 a card saying we are all well
 and happy. Haulen has
 written to asking if a German
 lady who stayed to come
 directly returned that if

Shoes may be a fortnight away to
be come. I think if it could be
arranged that it would be best
for Hauler to take charge alone
until return. I think to
let Mr. Mark be in the care of
Shang's. I dare say you could
find up someone who would
be for a few weeks. They say he
is very nice - musical &

domesticated - perhaps someone
would like her for the holidays -
I don't like to tell them not to write
to me. It's when you are in a cell
no one thinks to every little worry
now until it seems ten times
the size. Tell them to send all
letters to you just - I make it
quite clear why I should send
nothing. I dare go straight if
I have no outside worries - but
do like to hear that they are well & happy.
I dare to leave things that are painful
but that can't be helped.

I don't wish to see Bell papers
Miss Brackenbury to be the
resch call to me & the desks
of the second master at
Junto School opposite.

Now feeling better this evening
and I shall be here

this call better than Hospital

Goodbye my darling. don't
look so sad

Yours lovingly

Nellie
