JOHANNA SPYRI (writer of children's books)

Two new west German stamps which are to be on sale from November 15. They bear portraits of Dr. Samuel Hahnemann, the founder of Homoeopathy, and of Florence Nightingale. Each stamp bears a tax of a few extra pfennigs for charity.

Two of the stamps issued in Turkey to commemorate the centenary of the arrival in Turkey of Florence Nightingale.

### POLAND

In 1927, Poland issued a stamp bearing the likeness of Marie Curie.

**Switzerland** For the first time a woman's head appears on a Swiss stamp; it celebrates the 100th anniversary of the birth of Mme. Suzanne Orelli, who started the popular temperance restaurants in Switzerland. These had an immense social significance and were specially helpful to the young women just entering factory, business and scholastic life. The profits go to the Society Pro Juventute, with its vast range of activities, grants for apprenticeships, hostels, libraries and other aids to youth.
