Madam

Miss M S Pye who has for the last year been occupied in sending middle class young women to the Colonies, has now decided to go out herself to Australia to organize Societies of ladies to receive immigrants from the old country, without which organization no safe Emigration for women can be carried on.

Might I as one of Miss Pye's greatest supporters take the

liberty of asking for an inter-
-view with you. It would be
an immense advantage to
Miss Mc Sneye if she could
have some introductions
from you to the clergy in
Australia

The Columbian female Emigration
Society has asked Miss Peye
to undertake its affairs in
conjunction with our Society

Miss Peye is inclined to
think much more could
be saved by having only one
Society.

Madam H

Yours faithfully

Barbara L S Boddeley
