Transcript of letter dated June 26 (no year) from Beatrice Webb to Miss Moore.

Dear Miss Moore,

I enclose a dozen more forms: it is best to get each friend to write the address of the member. It would be most useful to enrol members. As you contribute work to the Committee you can always take bits of literature back with you. We should also be only too glad to supply literature "Sale or return" on trade terms (4d. in the 1/- discount) to any one who would undertake to sell it at meetings or elsewhere. We want a corps of literature sellers - the discount would cover expenses etc.

I send you a photograph. We must bear in mind the support of the Bookman: but I doubt whether a "Webb" number would be popular or appeal to the Editor!

Yours,

Beatrice Webb.
