I don't seem ever to see you now. But you will come to Bournemouth.

What you. I feel rather afraid you'll say No for us

Pool. I shall see much good by dear

so heart. English I wish to be

Yr. Roper.

DURBING, GUILDFORD.

I'm not coming this week end after all. I shan't finish here till to-morrow afternoon. Then I go to home of Mrs Vanessa has asked me to go to Wincott for the week end as D. will be away & as I haven't seen her for months I think I must, (as a matter of duty) I mean really I think I will. I've looked top like a nipper here

11 hours today almost without
a break and in
so stiff with body
over the wheel that I could
hardly walk. In in such nice
lodging - Except at Darbins in
not been so well looked after for
eyes. In one some good pots I
think - anyhow in getting really
rather stiff. It's the best work
for me - rather hard physically &
great nervous & excitement, for
each pot is more or less a
dramatic event - and so tired
at night that in sleep 7 or 8
hours wh. I haven't done for ages.
What you see this letter shows. Do
write to me & tell me how you are
