Dearest - Mrs,

So many thanks to you for your loving letter showing as usual all your unfeeling love & confidence. It is a great happiness to me to have this.

Your charming gifts too are very dear to me - both the gloves & the shoes.

Every year's experience of the voting power of women brings home to us the tremendous value of what we won in 1918. The passage of the equal

divorce law last Friday by that immense majority is evidence ^{in itself}

in itself of why we struggled so long & unceasingly for the right of self protection through representation. It is a wonderful

piece of good fortune for me to have lived to see my dream come true.

With dear love from us all three & many thoughts of you & your two dear young people

Ever your very lovingly

M. G. Dawsett
