Dear Sir.

Mr. Keir Hardie in his
Citizenship of Women (Edt by W. J.
Stead) p 13, quotes a table
prepared by the Independent
Labour Party shewing the
sectors on the registers,
Total women voters,
Working women voters
& non working women voters,
in 50 towns. He says the
return is incomplete & replies
are to come from 300 branches.

Can you tell me if this return
has ever been completed or
whether reliable information
upon this point has been
published or is available?

I should also be glad to
have a copy of your leaflet
Women's suffrage in N. Z &
Australia.

Yours faithfully
Ernest ~~W~~ Root
