Dearest Ivy

Alan's visit was awfully nice. Seeing people

is a thousand times better than writing. I wish

you had been able to come too, beloved. I

don't like you to be at all fedgy & we shall all

feel the sky clearer when NO 4 is safely

here. The first 3 are such darlings that it

is worth while going through something for NO 4.

I am writing to Dr. Turnbull - & I wd. like you

to go see her regularly every month please

in any case - of course of course if you are

in any way or suffering in any way.

Thanking you sent me an aerial bonnet. There has not
been time to thank abt. ourselves much but it is
cold especially at night & it may soon be colder &
I have already started wearing yr. things with great
comfort. The waist coat thing is beautifully

warm — Will you please burden myself with
getting duplicates for Ho — & sending them
either by Miss Burdett or direct by Parcel post to
her at Claridge & Attens we have the bill. Good
gloves = ^{with long fingers & big} sleeping woolies: puttees of mouse colour:
& leather waist coat like mens only if possible
mouse coloured or brown rather than yellow
& slender size  not 

M^r Campbell is just leaving so I must not write more.
Much much love to SA.
