Kunth wrote me a
letter as he started
2 mos. ago. & I have
now answered. Will you
write a letter to the friends of all the
men who are in the camps
when they come home.

Thanks v. much for yr. letter just recd.

How! be so quick if you could come over
see us. If you do come please, tell
D. Woodcock before hand so as to be able to
bring parcels if necessary (kind thought!).

If I have warning I have no doubt I can get a
bed for you either here or in Boulogne though both
places are pretty full. I should love to see you & I think you would
be interested to see things here
We are quite busy here & rather weedy places although
not luxurious. We sent home our first convalescents
today in great spirits at going but quite sad to leave - a
mixture of farewells & great many handshakes & good wishes all round.
It is sad that Lord Roberts has died although I think it is
rather fine for him over 80 to have managed to die "at the
front". I don't expect to be able to come home yet -
we have been taken on regularly as a military hospital
reopened etc. telephone kept in. & there is plenty of
work here to be done.

500. If I stay on, I will come over & see M. & try & straighten my own affairs abt Xmas & then come back again. Letters take an immense time to reach you but the actual journey is quite simple & quick. Even on rough days the wedding boat has reached us in time for luncheon.

It is awfully nice of you to offer us another bit of help but don't give us anything yet. I think I can manage. It makes all the difference having been taken over by the War office. The army rations strike me as excellent in quality & amt. & they require very little supplementing so that our expenses are reduced tremendously. An army chaplain has been here today, at my request, for a service in the ward. We had no hymns or harmonium but the men sang well
