I am sorry but yours of the 12th Oct. has only just reached me. I am taking meetings all over the Country.

If not too late, I do send my hearty congratulations to all concerned in having ^{brought} that healthy & robust infant to its 2nd birthday. It is a triumph of tenacity - and wish long life and increased usefulness to the Woman's Outlook. May it continue to broaden and strengthen its readers to be builders of the peace which we all desire.
