

**Would you describe yourself and WILPF as pacifist?**

I wouldn't describe myself as a pacifist. From what I have read of WILPF's history and the debates that have gone on, I understand that WILPF is not a pacifist organisation. Although, there are Sections and groups within WILPF who are strongly pacifist.

But I think there are certain situations where people are not able to adopt a pacifist approach and who am I to question that? I don't know what I would do in the same situation.
