Dear Madam,

In view of the Dulwich election may I suggest that it would be valuable to secure from both candidates a public declaration upon the question of women's suffrage. And that our old established society is the proper medium to secure that declaration. I know that both candidates have replied favourably to letters upon the subject: but they should be made to make a public utterance and, in my opinion, our Society should only help that candidate who is in favour of urging the suffrage on the Government, without regard to the party he belongs to.

I hope I shall receive the ticket for the Booter Hall Meeting on the 19th.
Sincerely yours
Eleanor W. Allen
