Hotel Claridge Paris.

Oct 11. 1914

Dearest Mother. Another welcome offer of post to our
letters has come. This will go over tomorrow by hand &
shd reach you on Tuesday morning.

We have been here nearly a month now. It seems a long time
altho' each week goes faster than the last - & every
day is v. full & v. interesting.

We are all very well. I feel tremendously rested by
our time here. It is so nice & so easy to have only one job
on hand & the remaining of this well is most interesting.

Sundays are always rather an ex. tiring day & today we
have had more visitors than usual - a Dr. Baron sent out
by Kitchener to inspect the auxiliary hospitals made a distinctly
important & satisfactory visit. Then we had 2 countesses
Lady Robert Cecil & the Daily News Paris Representative

an RSM man from the Clearing Hospital at Versailles, the
Representative of the French Minister of the Colonies, several
French officers & about other people. Owing to all this
sociability, I missed seeing a German airship pursued by
2 French ones which flew over Paris which was v. disappointing.

Dr. Murray has been out all day motoring round Chantilly
& Senlis & seeing all kinds of v. interesting things but
failing to bring back any wounded men which was the primary
object of his tour. As the fighting line recedes, it becomes

increasingly difficult to get patients into Paris — & the
obstacles offered by officials are extraordinary.

Still we have 70 patients here & some v. good cases &
they seem v. contented so that is alright.

I long for news of you all & just send you a very great
deal of love — yrs always B.G.

Stamps v. welcome, ahem.
