

Why did you decide to join WILPF?

“When I read all the information, I decided that really, it was just everything I believed in all tied together, which other groups weren’t offering me.

Also, I could see that whilst we were standing trying to pull down the fence at Greenham Airbase, we were only reaching *our* media and *our* Ministry of Defence and *our* government and however they wanted to spin it.

But by being in WILPF, you could have your views heard at the highest tables. “
